Dear Mother & Dolka

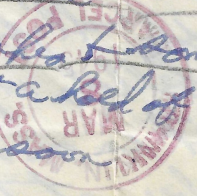
How are things in the old home town this morning? Have been pretty busy the past few weeks. We are living in an old French home, it is a very nice place. The Germans lived in it when they occupied France. This M.P. outfit is very easy compared with the old infantry. Today is Sunday & hope to get to church. We started working this morning at 8 & get off at 6 tonight. Then we come back Monday night at 6 & work until 11 & then start all over again on Tuesday morning. We keep this town we are near pretty well policed. Just make sure the fellows on pass behave themselves & get in on time.

We have been at this part of France for 2 weeks & don't know

how long we'll be here, we might leave tomorrow & then again we might be in this part of France for months.

Things up to the front sure are looking better hope the good news keeps up. Haven't got any mail for over 2 weeks, sure am looking for some. Hope Dot had a fine birthday.

The War in the Pacific is going great guess now of this year. No place to spend our money are here. I am now starting to send a 50 dollar War Bond home a month & still leaves me 25 a month to spend. Please send me a couple of hair brushes & some candy if you can get a bed of a little. Please write me soon.



Love to all "Dad"
